White Rock Road @ Prairie City Road
Intersection Closure & Traffic Restrictions
~May 31 to June 3, 2013~

Sacramento, CA - Upcoming White Rock Road Improvement Project work includes reconstruction of the intersection of White Rock Road at Prairie City Road. This work will require full closure of the intersection for the weekend of May 31 to June 3. Information concerning the intersection closure is listed below:

- **White Rock Road @ Prairie City Road:** The existing intersection at this location will be removed and replaced. The new intersection will be raised 4-feet higher than the existing grade, and widened to accommodate turning lanes and a new traffic signal. Construction activities will include: roadway excavation; asphalt-base and asphalt-concrete placement; temporary striping.

- **Anticipated Work Schedule – May 31 to June 3:** There will be a full intersection closure at this location from 9 PM on Friday, May 31 to 6 AM on Monday, June 3. Detour information will be posted to guide motorists around the construction area.

- **Detour Routes:** West bound White Rock Road motorists can detour to Scott Road (north) to US-50 west to Sunrise Boulevard. East bound White Rock Road motorists can detour to Sunrise Boulevard north to US-50 east to Scott Road. North bound Grant Line Road motorists can detour to White Rock Road west to Sunrise Boulevard north to US-50 east to Scott Road south. Local traffic to the
Prairie City Vehicular Recreation Area may enter from White Rock Road east bound at all times. (See map of closure location.) Access will be maintained for emergency vehicles during the closure period. Check [www.sadot.com](http://www.sadot.com) for updated project information and to sign up for automatic email updates.

**Roadway Construction:** This intersection closure is needed as part of the White Rock Road Improvement project. White Rock Road is being realigned to intersect with Grant Line Road approximately 700 feet south of the existing intersection. The road will be widened to two lanes in each direction, with paved shoulders and medians.

**Your Patience is Appreciated:** Sacramento County understands the challenges and inconvenience that commuters, residents, businesses, bicyclists and pedestrians will experience during the closure period. The patience and cooperation of the traveling public is appreciated as we work to complete this project.

**Contact Information:** For additional information about the project or detour routes please contact: Scott Werth (Project Manager) at 916-874-5259 or werths@saccounty.net, or Greg Smith ( Resident Engineer) at 916-838-1306 or smithgr@saccounty.net.
