## **New Community Development Website Launched**

*Information for building and development customers now easier to access*

Sacramento CA -- Sacramento County's Community Development Department is pleased to announce the launch of a brand new website focused on building, planning and environmental review, development and code enforcement services.

<http://www.development.saccounty.net/Pages/default.aspx>

"Though we have more work to do, the new design is a great representation of the changes we have made to improve operations and offer high-quality, customer friendly services," said Lori Moss, Community Development Department Director.

The website was done in-house and was a great collaboration between all the divisions to deliver well organized content to customers, whether they are planning to develop a commercial property or are looking to replace a water heater, Moss said. "We want people to be able to find the information they are looking for quickly and have a better understanding of our outstanding services and coming improvements," she added.

The Department reorganized so that all related services were under one director, and recently added Wi-Fi to the public areas so that customers can work on their smart devices while in the building. Construction work has begun on front counter improvements at 827 7<sup>th</sup> Street to deliver a "one stop shop" environment to customers.
